

Wedding Ideas

Inspired by a luxury bohemian theme, this chic-styled shoot at Château Bouffémont in Paris is a gorgeous ode to Spring.

With a creative team hailing from the USA, France, Brazil, Romania, and Portugal, Lead Planner, Aurore Astor-Sims of PEvents and Co., incorporated spring blooms inspired by a color palette of blush, salmon, and pink tones to encourage couples to create their own luscious outdoor ceremonies.

Representing a mixed-race couple, their styled shoot speaks to diverse audiences while the bride's natural hairstyle strives to inspire Black brides to embrace their natural tresses and love themselves, always.

"We did not spare any details to create the perfect bridal experience: being open to new ideas and ways of doing things, we embraced the diversity of our team. This made a truly unique and memorable event day." – Aurore Astor-Sims of PEvents and Co.
